Just a little update on  
Brandon:

Brandon is home now. He is out of the hospital and is doing great. He is continuing rehabilitation a few days a week and keeps growing stronger every day. He is walking, talking and eating like a 12 year old should.

There are still short term memory issues but it should get better with more time.

Brandon had a school placement test the other day and did well. They still need to grade the exam to place him in school for the fall. We

are hoping that he will continue to improve as time goes along. With interaction of friends and family I am sure he be able to grow.
